AIDS 2020

SAN FRANCISCO/OAKLAND

Conference committees

An open letter from your AIDS 2020 Conference Coordinating Committee

[Search...](#)
 We are proud of the communities we are – people living with HIV; men who have sex with men, transgender people, and other LGBTQI people; racial and ethnic minorities, indigenous people, immigrants and refugees; sex workers and people who inject drugs. We are scientists, clinicians and community advocates. We represent an international community, a United States and other countries around the globe that are resisting divisive politics and united in this historic and collective fight to ~~end~~ end the HIV epidemic.
