### Did you know?

- 44 percent of people in Indiana are poor or low-income—a total of 2.9 million residents. This includes 55% of children (873 thousand), 47% of women (1.5 million), 64% of people of color (801 thousand) and 39% of White people (2.1 million).
- Almost 125,000 veterans have incomes below \$35,000 dollars in Indiana—27% of Indiana's veteran population.
- 1.3 million workers make under \$15 dollars an hour—47% of Indiana's workforce.

Together, we can bring attention to the impact of policies which promote systemic racism, poverty and inequality, the war economy and militarism, environmental devastation, and the distorted moral narrative.
